DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 15-27 and 34-36 are rejected under 35 U.S.C. 102(b) as being anticipated by Soeda, for reasons cited in the previous action.

Response to Arguments

3. Applicant's arguments filed 06/27/2005 have been fully considered but they are not persuasive.
4. Regarding applicant's argument against Soada, it is noted that the claims are rejected over JP-02084483, not just its abstract or even the child patent issued from the application. JP-02084483 teaches an adhesive composition comprising 100 pts. wt. of an aqueous dispersion of an adhesive resin, and 2-30 pts. wt. of a surfactant, both on a solid basis. As the disclosure and the examples of JP-02084483 teach a solids content of about 50%, the 2 pts. wt. on a solids bases of the surfactant correspond to a surfactant content of about 1% based on the aqueous dispersion, which meets the

present claims. The fact that the patent JP-B-07-68504 contains a different disclosure is inconsequential as it has not been relied upon for the rejection.

5. Applicant also argues that the emulsion polymer of Soada is not used alone in the adhesive. However, applicant's claims do not exclude adhesives wherein the emulsion polymer is combined with other resins.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
